IN ASSOCIATION WITH

DEAR COLLEAGUES ,

It is our great pleasure and privilege to invite researchers, academicians, scientists, and students to this International Symposium. The meeting brings together an international forum for scientific exchange across disciplines centered on mitochondria, cell death, and cancer in human diseases. Key themes include the mitochondrial unfolded protein response, mitochondrial dynamics, mitochondrial respiration and metabolism, cell death pathways, and cancer therapeutics. Through dedicated sessions, panel discussions, and oral and poster presentations, the symposium will foster international collaboration and scientific dialogue among students, junior investigators, and established leaders across disciplines. Researchers working in cell death, mitochondrial biology, cancer biology, and the pathobiology of human diseases are warmly encouraged to attend.
